 [github.com/eugeneroy29](https://github.com/eugeneroy29)

## PROJECTS

### • Interactive To-Do List

A fully interactive and responsive to-do list application with task editing, reordering, and localStorage support. Includes dark mode toggle with animated icon transitions and clear-all feature.

 [github.com/eugeneroy29/my-todo-app](https://github.com/eugeneroy29/my-todo-app)

### • React Shopping Cart

A responsive shopping cart application built with React, React Router, and Context API. It features product browsing, dynamic cart updates, and a persistent shopping experience using local storage.

 [snappycart.netlify.app](https://snappycart.netlify.app)

 [github.com/eugeneroy29/shopping-cart](https://github.com/eugeneroy29/shopping-cart)

### • My Portfolio Website

A responsive and modern portfolio website built with React and Tailwind CSS. It showcases my web development projects, skills, and contact information. The site features smooth scroll navigation, dark mode support, custom animations, and a clean, user-friendly interface — all designed to highlight my work and attract potential employers.
